

The following answers are provided in response to questions received regarding RFP NNK15539043R. The answers shall not be construed as changing the RFP in any way unless as specifically revised through an amendment.

Question #	Document	Question	Answer
58	J-01 PWS	J-01 PWS section 1.2.2.D states that the contractor shall "Use the Government-provided Training Certification Record System (TCRS) to document all technical training and certification of Contractor personnel." When we develop our training and certifications for our workforce and need to create new courses to support training our workforce, will our new course information be added to the government's system so that all our training is identified and tracked in TCRS?	Contractor-developed training will not be added to TCRS.
59	B-M, G.10 and L.17.3	The RFP states that anything leftover [from the annual \$500,000] will be allocated to the next year. Unless this is put into a separate cost type CLIN, how will the costs be segregated?	In accordance with RFP provision L.17.3, Volume III - Price, the offeror shall apportion, within the proposed unit pricing, a total value of \$500,000 across any or all of the TINs based on the offeror's proposal strategy. Consistent with RFP clause G.10, Non-routine Property Maintenance, Repair, or Replacement, the Contractor shall have \$500,000 available each fiscal year, totalling \$2.5 million over a five-year period if all options are exercised, for the services specified within the clause. The Government does not contemplate adding a cost-type CLIN to the RFP or resultant contract and there is no requirement for segregation of costs associated with G.10 performance.
